DETAILED ACTION

Status of the Claims

Applicants' preliminary amendment, filed on August 31, 2001 is acknowledged. Claims 1-14 have been cancelled and new claims 15 and 16 have been added. Therefore, claims 15 and 16 are currently pending and are under examination.

An **Examiner's Amendment** to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Examiner's Amendments to the Specification

The continuity data has been entered on page 1 line 1, which reads as:
This application is a division of 09/184001, filed on November 2, 1998, now published US 6,303,333.

The title has been corrected to read as:

SBHWSB2: A new member of the WD40 SOCS box family

Authorization for this examiner's amendment was given in a telephone interview with Attorney Robert Anderson on December 15, 2003.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Art Unit: 1653

The prior art of record does not teach or suggest an isolated polypeptide consisting of the amino acid sequence set forth in SEQ ID NO: 2, that has been characterized as a member of SOCS box family protein. Therefore the polypeptide of the invention is novel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Claims 15 and 16 are allowed.
